

A New Direction

Looking for beauty in the darkness of night

Beat the Heat

Summer has arrived and it has brought along its uninvited friend, the debilitating heat and humidity. From above, this winding road reveals a striking contrast. On one side, a dense forest canopy offers shade and relief, while on the other, exposed earth bakes under the relentless sun. As temperatures climb, even a simple walk can feel dramatically different depending on the path you choose. Sometimes the coolest escape isn't far away—it may be just on the other side of the road.
